### Beskrivning

Författare: Julie de Halleux.

At Lexitis, our planners are printed on paper produced from sustainably managed forests (FSC, PEFC) because we are conscious of our environmental footprint. But we have chosen to go one step further by printing our planners on demand. This means that the copy that you are holding between your hands was printed only once it had been ordered by your bookstore, yourself or one of your acquaintances. And this is the case for all the books that we produce. This means that we have no merchandise in stock, unsold books, unnecessary shipping costs, or pulping costs. We aim to minimise our environmental impact, in fact, to the exact number of copies purchased by our readers. Zero waste. Of course, this is a slightly more complicated process, with slightly higher costs and slightly longer delivery times, but we think that it is worth it. We hope that you do too.

## **Annan Information**
